

## CHIP SEAL/OVERLAY MARKERS

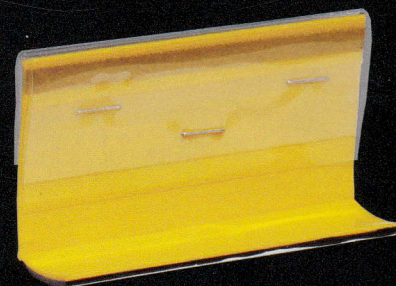

Flexible roadmarkers are excellent for day or night delineation.  
Help guide drivers through work zones.

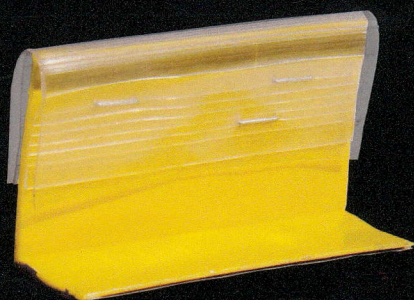

4" Single Cover

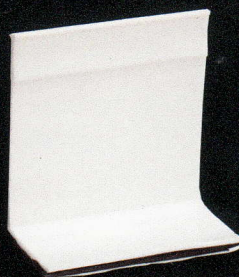

4" No Cover

4" Double Cover

4" High Heat

2" No Reflector

1" No Reflector

The Model 932 chip seal/overlay markers help guide drivers through work zones as temporary delineation. They are excellent for both day and night visibility. Made from flexible polyurethane body and high grade prismatic reflective tape, these markers are easily applied to the road surface by peeling back the butyl adhesive protective paper. Single or double PVC covers can also be stapled to marker bodies for easy removal.

**Selections:**

	White	Yellow
4" one way no cover	<b>W-1 NC</b>	<b>Y-1 NC</b>
4" two way no cover	<b>W-2 NC</b>	<b>Y-2 NC</b>
